Summary

Full Stack Developer and community builder currently pursuing BSc. CSIT at Tribhuvan University. I combine hands-on engineering experience from real-time systems to mobile applications with active leadership across Nepal's tech community, including open-source clubs, student hackathons, and AWS community events. I take ownership beyond the codebase: coordinating teams, designing for events, and creating spaces where students and professionals connect and grow together.

Professional Skills

Languages: JavaScript, TypeScript, SQL

Databases & ORM: PostgreSQL, MongoDB, Redis, Prisma ORM

Frameworks & Libraries: React, Next.js, Node.js, Express.js, React Native, Expo

Tools & Technologies: Git, GitHub, REST APIs, WebSockets, Vercel, Tailwind CSS

Core Concepts: Real-Time Systems, Webhook Integration, Mobile Development, MVC Architecture

Experience

Paper Bank Solutions Pvt. Ltd.

Full Stack Developer

Kathmandu, Nepal

December 2025 – Present

Toastmasters Club Management Website

- Designed and developed a club management website to streamline scheduling, member management, and event coordination for a local Toastmasters chapter.
- Built a responsive, user-friendly interface using **React** and **Nest.js**, ensuring cross-device compatibility and an intuitive user experience.

Wedding Management Mobile Application

- Developed a cross-platform mobile application for wedding planning and vendor coordination using **React Native** and **Expo**.
- We built a robust and modular **RESTful API** using **Node.js** and **Express.js** to power core business logic, including booking workflows, vendor listings, and user management.
- Implemented secure user authentication and role-based access, ensuring data privacy for both clients and vendors on the platform.

Inflancer Technology

Backend Developer

Kathmandu, Nepal

August - December 2025

Government Healthcare Center Admin Panel

- Developed the backend for a government healthcare center's admin panel, enabling staff to publish and manage real-time updates on services, events, and operational information across the facility.
- Built a performant and lightweight **RESTful API** using **Bun** as the runtime and **Elysia.js** as the framework, leveraging their speed advantages for a responsive admin experience.
- Designed secure content management endpoints to handle CRUD operations for healthcare announcements, department details, and facility-wide information updates.

NayaPurano – Warranty Selling Platform

- Collaborated as part of a cross-functional team to build **NayaPurano**, a warranty buying and selling platform, with the frontend powered by **Next.js**.
- Designed robust and scalable **RESTful APIs** using **Elysia.js** on the **Bun** runtime, ensuring high-throughput handling of warranty listings, transactions, and user operations.
- Containerized the entire backend service using **Docker**, streamlining deployment, environment consistency, and scalability across development and production environments.
- Managed database interactions and schema design using **Drizzle ORM**, ensuring type-safe queries and efficient relational data handling for warranty and product records.

Volunteering & Community

AIDEA Hackathon

College Ambassador

Kathmandu, Nepal

2024

- Represented the college and served as a key liaison between the organizing core team and student participants, ensuring smooth event logistics.

- Contributed to promotional efforts by designing event posters, managing on-ground coordination, and fostering a positive, high-energy hackathon environment.

AWS Student Community Day Nepal

Kathmandu, Nepal

Web Developer (Volunteer)

2024

- Collaborated as part of a team to build the official **AWS Student Community Day** event website, facilitating registrations and providing event information to **300+ students and tech leaders**.
- Built with a modern tech stack: **React, Next.js, TypeScript, and Vercel** for fast, scalable deployment.
- Contributed code to the open-source repository: github.com/awscloudclubnepal-oss/AWS_Website.

OSAC – Open Source Ascol Circle

Kathmandu, Nepal

President

Current

- Orchestrated club initiatives to host online and offline sessions, bridging the knowledge gap between students and industry professionals.
- Designed promotional posters for club events and actively supported community outreach to grow student participation in open-source development.

ASCOL Hackfest

Kathmandu, Nepal

Graphic Designer (Volunteer)

2024

- Produced **20+ graphics and event posters** for the grand Hackfest organized by the ASCOL IT Club, strengthening the event's visual identity and outreach.

Projects

Rusic – Real-Time Music Streaming Application

React/Next.js, WebSockets, Redis, YouTube API

- Engineered an interactive, collaborative music queue platform featuring **YouTube link validation** and a real-time community voting system for queue management.
- Implemented **WebSocket** integration to deliver live queue updates and **Redis** for in-memory state management and playback synchronization across all connected users.
- Ensured consistent listening experiences through a playtime synchronization mechanism built on top of the **YouTube Player API** and real-time metadata updates.

PayYay – Payment Application

React/Next.js, Node.js, Prisma ORM, Webhooks

- Developed a functional dummy payment application simulating core transaction flows such as transfers, balance tracking, and transaction history.
- Integrated a **Webhook API** with **Node.js** to handle asynchronous payment event processing, reflecting real-world fintech system architecture.
- Managed data persistence and relational schemas using **Prisma ORM**, ensuring type-safe and efficient database interactions.

Education

Amrit Campus, Tribhuvan University

Kathmandu, Nepal

Bachelor of Science in Computer Science and Information Technology (BSc. CSIT)

2024 – Present

- Building a strong academic foundation in computer science fundamentals, algorithms, data structures, and software engineering.
- Actively engaged in hands-on project development and the local tech community alongside formal studies.
